

Wholesale Terminal Strategy

The wholesale terminal strategy is set.

New wholesale terminal provided by the Liquor Enterprise - one for each Agency currently selling wholesale.

Pre-configured to interface directly with Microsoft Dynamics AX platform.

Hewlett Packard:

- Touch-screen monitor
- Keyboard
- Thermal printer (with paper)
- Mouse

Surge protector required at installation (provided by Agency).

The wholesale terminal offers several features and benefits.

Dedicated to wholesale orders - all wholesale orders must be created using new terminal.

Improved wholesale ordering –interface with Enterprise system through new Cisco Wireless Access Points (WAP) = better speed, accuracy, reliability.

New product lookup feature – conduct searches by partial product names or brand codes.

Footprint for terminal, keyboard and printer is just 20”x24”.

You will receive training on the new wholesale terminal.

Training will be included in deployment training.

Hands-on training in an instructor-led environment will include operating wholesale terminals and handheld scanners.

Training materials and Job Aids will be provided.

This training will be crucial to your understanding of the system, and will cover the tasks and processes you do on a daily basis.

Your wholesale terminal will be installed for you.

Equipment to be shipped directly to Agencies prior to transition to the new system (do not open until installation day) – watch your emails and the Portal for notifications of shipment.

A third-party vendor will install wholesale terminals – you will be notified of the installation date/time ahead of time.

The Liquor Enterprise will cover the cost of installation.
